There is also a pond with some green and rather croaky residents. What splendid musicians! Listen, it's the singer Croquette, singing the most beautiful of all arias.

What happened? A little ant is injured so Sevenspot and Gregory are taking him home. They'll give him some medicine and bandage his wounds. Let's hope he gets well soon.

Anthony the ant's aching leg and head are a thing of the past. Now, the butterflies are helping him to invite all the beetles to Sevenspot's circus. Hurry up, too!

All proper circuses have intrepid fire eaters, who savour the orange flames as if they were a delicious ice cream. Anthony dreams that, one day, he too will be such an artist.

Sevenspot's Adventures for Little Readers

They all want to get to know Sevenspot the ladybird, the little beetle with the red wing case and pitch-black spots. All creatures great and small, from forests and meadows, as well as children and their parents. Not only does this little rascal of a beetle get up to the usual children's mischief, he also orchestrates the most successful circus ever under the tall fir tree. The beautiful classic drawings by the acclaimed Czech illustrator Vojtěch Kubašta will guide you through the fabulous world of Sevenspot and all his friends. Roll up, roll up, the story is about to begin!
